I love the reference to the Remediation Gods on page 2! Obviously we have not been making the appropriate offerings!

Subject: Notes from Upper Animas Meeting

All, thank you for your participation in the great meeting last week. I think you accomplished a lot. Apologies that I have been slow in getting out meeting notes; there is a reason for that. I accidentally left half of the notes on the mall bus coming in Monday and have not been able to recover them. The good news is that I have the other half but the bad news is that I lost the summary notes. So, I have attached a synopsis of the exercise we did that informed most of the summary notes and I have photo copies of many of the background work we did in the morning. In order to type this up while we have memory left, please shoot me any notes you have or copy them and leave them on my chair—or pdf them to me. Thank you for your understanding.
